What's New. What's Trending. What's Turning Heads.

This summer is all about healthy-looking hair, effortless texture, and personalized color. Clients are embracing soft, lived-in blondes, rich dimensional brunettes, glossy finishes, and styles that look polished without feeling overdone. We're also seeing a continued focus on scalp health and hair wellness, as consumers become more intentional about caring for their hair from root to tip. The good news? Our newest launches are perfectly positioned to support these trends.

This month we're spotlighting some exciting new additions you'll find throughout this deal sheet. Be sure to keep an eye out for:

New Redken Shades EQ launches - Fresh tones, endless creativity, and even more ways to customize your color services. (page 10)

New Redken All-Soft Mask - A luxurious self-care moment for clients looking to nourish, restore, and shine. (page 9)

Amika's newest must-have - The Protector. Because great hair days should never be optional. (page 7)

More innovation, more inspiration - Flip through these pages to discover new products, seasonal promotions, and opportunities to elevate your retail recommendations.

hair loss awareness

August is **Hair Loss Awareness** Month, and let's be real—hair loss conversations are becoming more common than ever. Whether it's genetics, hormones, stress, illness, medications, nutritional deficiencies, scalp concerns, or simply the aging process, most people will experience some form of hair thinning or shedding at some point in their lives.

As beauty pros, when clients come to us with questions, they trust us to guide them in the right direction by helping to educate, support, and recommend products and services to help them feel more confident in their hair journey.

TALKING TO CLIENTS: THE DO'S AND DONT'S

START WITH CURIOSITY, NOT CONCLUSIONS

- ✓ "I've noticed some changes in the density around this area. Have you noticed anything different lately?"
- ✓ "How have you been feeling about your hair recently?"
- ✓ "Are you noticing more shedding than usual, or does your hair feel a bit more fine overall?"

POSITION YOURSELF AS THEIR PARTNER

- ✓ "Let's explore some styling options that can help create more fullness."
- ✓ "There are a few different approaches we can look at based on your goals."
- ✓ "I can share what I'm seeing and recommend some resources if you'd like."

NORMALIZE THE EXPERIENCE

- ✓ "Hair thinning is actually really common and can happen for lots of different reasons."
- ✓ "Many people experience periods of shedding or density changes throughout their lives."

KNOW WHEN TO REFER OUT

Some conversations belong in a medical office.

- ✓ "Because hair thinning can have several causes, it may be worth chatting with a dermatologist or healthcare provider."
- ✓ "A scalp assessment or medical evaluation may help provide more answers."

VALIDATE THEIR FEELINGS

Sometimes clients just need to know they're not alone.

- ✓ "I understand this can feel upsetting."
- ✓ "Thank you for sharing that with me."
- ✓ "It's completely normal to have questions when you notice changes in your hair."

WHAT NOT TO SAY

- ✗ **Skip the Diagnosis**
"You definitely have female pattern baldness."
- ✗ **Avoid Alarm Bells**
"Wow, you're really thinning."
- ✗ **Never Promise Results**
"I can fix it, or you'll definitely see results in xyz weeks."

GO-TO STYLIST SCRIPTS

IF YOU NOTICE THINNING

"I've noticed a change in density compared to previous visits – have you noticed that as well?"

IF A CLIENT BECOMES EMOTIONAL

"I can tell this is important to you. Let's talk through some options that may help you feel more confident."

IF THEY ASK FOR A DIAGNOSIS

I can share what I'm observing from a hair and scalp perspective, but a dermatologist would be best equipped to determine the cause."

PRO TIPS FOR MEANINGFUL CONVERSATIONS

- Keep hair loss conversations private and discreet whenever possible.
- Use terms like hair thinning, density changes, or increased shedding rather than emotionally charged words like balding.
- Ask permission before bringing it up: "Would you be open to talking about something I've noticed regarding your hair density?"
- Make note of observations in client files so you can track changes over time.
- Build relationships with dermatologists, trichologists, and healthcare professionals for trusted referrals.
- Focus on what you can help with—haircuts, colour placement, styling strategies, scalp care, volumizing techniques, and realistic expectations.

What's your fave part about the beauty industry?

My favourite part about being in the beauty industry is the opportunity to walk with guests throughout many stages of life. We get to celebrate their wins, comfort them through their grief, and remind them of their beauty & value when they've forgotten. It's intimate in a way that no other career can quite capture. The other aspects I love are the creativity we get to express & the excitement that a transformation brings. There's always room to grow & always a new challenge to tackle.

if you could only take one product along with you on a night out, what would it be?

Oribe's supershine wax stick for flyaways or the perfect slick back.

what's one quote that you love?

"I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel."
-Maya Angelou

if your salon was a beverage, what would it be... and why!?

A caramel macchiato! The Palm experience is warm & inviting, the perfect "treat", and a little boost to get you through whatever life is throwing at you ❤️
