SUMMIT Shoutout

wildflower hair salon

location: spruce grove, ab

owner: danielle

📷 @wildflower.hair.salon

what's your fave part about the beauty industry?

oh geeze, there are so many parts i love about our industry! i would have to say hair classes and shows - it's great to bring that education back to the salon and our guests; this keeps us inspired and our guests coming back. i am also so thankful for the relationships i've built along the way. without my team and the guests that have sat in my chair, none of this would be possible. how lucky am i, to be surrounded by so many great people that empower and allow me to be creative? it has truly never been about just so doing hair - it is about much more than that!

if you could only take one product along with you on a night out, what would it be?

oribe gold lust nourishing hair oil - you can always use a little hair hydration when out and about. but on any given day you can find at least 3 travel size oribe hair products in my purse ;)

photographer:
@kmhforte.photography

what's one quote that you love?

"don't look backwards, you're not going that way." fear of change or learning something new holds too many people back from their dreams and personal growth. if we stay stuck in the same spot, we aren't evolving. we are only as good as the work and effort we put into something.

if your salon was a beverage, what would it be... and why!?

the wildflower french 75: bright and refreshing with a natural, elegant sparkle. the champagne's bubbly energy captures wildflower's lively, creative vibe. gin brings a botanical, earthy touch- reflecting the salon's connection to nature. lemon juice adds crisp freshness, like the salon's vibrant healthy styles. a twist of lemon peel finishes off with a handcrafted, personal flair. wildflower is a sparkling blend of natural beauty and effortless sophistication- just like a perfect french 75.
