Splish Splash Let's *Slash* Your Water Bill in Half

...oh & like save the world or whatever #givesum

salons use a ton of water (like... a lot), so this march + april we're diving into a water-saving initiative, to help protect canada's glacier reserves – which are melting faster than we can say "climate change," btw. oh and once they're gone, they're gone for good. these icy giants supply fresh water to ecosystems, communities, and wildlife across the country – so saving every drop counts.

wild right? check out page 22, to learn more about salon water usage + how you can help by incorporating some small, simple steps on the daily. plus: we set up a till talker + qr code for you, so clients can learn how to save water @ home too. it's a ripple effect, baby – and together we can make waves in water conservation. join our march april #givesum initiative and help us make a splash (responsibly)? 💧

📊 water facts worth knowing:

💧 the average salon uses anywhere from 44 to 270 gallons of water per day.

🧼 washing machines use an average of 15 – 45 gallons of water per load (depending on the model).

🚰 there are 16 full cups in a gallon – that's a lot of water going down the drain if we're not mindful!

The Scoop

oh just some things we've been up to lately...

if you are still reading this ... *you* are an absolute legend.

speaking of legends... we actually made a whole freakin' emoticon-fueled cheat sheet, to ease your future of flippin' (through these hot flamin' deals ahead.)

OF 2025

**summit
shoutout**

united artist hair salon

location: regina, sk

owner: kim

@unitedartisthairsalon

what's your fave part about the beauty industry?

the power of the transformation and self-expression. whether it's a bold new haircut, colour, makeup look, or a simple hair care routine: beauty allows people to showcase their personality and boost their confidence.

if you could only take one product along with you on a night out, what would it be?

tinted lip gloss. it's a game-changer because it instantly refreshes your look.

what's one quote that you love?

"i learn from my mistakes. It's a very painful way to learn, but without pain the old saying is, there's no gain". - johnny cash

if your salon was a beverage, what would it be... and why!?

a lavender honey latte - smooth, comforting and infused with a touch of indulgence. lavender, represents relaxation, self-care and a calming atmosphere; honey adds sweetness, symbolizing warmth, and a confidence boost; a latte is a classic, sophisticated choice: rich, energizing and timeless.

SAVE WATER. SAVE THE WORLD. *(And your water bill)*

salons go through water like we go through dry shampoo – fast. but what if we told you that a few small changes could save thousands of litres and help protect canada's glacier reserves? this march + april, GiveSum is piggy-backing off world water day to make it happen. here's how you can join the wave:

WATER-SAVING TIPS THAT DON'T SUCK:

spray smarter: swap old-school nozzles for water-efficient showerheads. same rinse, less waste. ecohead's water-efficient nozzles for example cut water use by up to 65%, boost pressure, filter out gunk, and soften the water with negative ions.

shampoo shuffle: turn off the tap during shampoo massages – by saving just 1 minute per day, and you could decrease water usage by 900 gallons per year.

cold cycle champion: wash laundry in cold water – modern detergents work just as well without the heat, and with salons doing 4-6 loads a day, the savings add up fast.

load it up: only run washers when they're full – because half-loads are so last season.

color cleanup hack: dump excess color out of bowls and bottles before washing, and batch-wash them 2-3 times a day instead of one-by-one. fill the sink like you're doing dishes and use cool water to reduce water and chemical usage.

nozzle know-how: you can also suggest are more efficient shower heads/ like jolie, to your clients – so they can conserve water while helping their hair & skin... everyone wins.

proper products: choose brands that are kind to your hairs, animals & the planet. ask us about which carbon-neutral brands we have that are actively reducing their environmental footprint – every drop counts. You can also let your clients know to swap out their shower head for one that's more efficient, but also helps their hair & skin.

READY TO MAKE WAVES? scan the QR code for client-specific-water-saving- tips you can pass along to salon guests. together, we can turn the tide on water waste.

what's your fave part about the beauty industry?

a fabulous facial experience, an expert manicure / pedicure, or a guest fluttering a new set of lashes, wearing a glow like no other. our master hair stylists and colourists on the salon side create the crowning glory! making someone look and feel beautiful is a super power - that's what keeps our expert team excited to welcome each new and returning guest through the doors.

if you could only take one product along with you on a night out, what would it be?

we carry an amazing skin care line, quannessence, as well as outstanding hair products, but if we had to choose one or two, to slip into our bag on a night

out: moisture mist and that'so italy body oil! these are secret weapons to keep one looking radiant and dewy.

what's one quote that you love?

"the most beautiful things are not perfect, they are special."- bob marley

if your salon was a beverage, what would it be... and why!?

hard to choose...but perhaps an espresso martini: luxurious, sophisticated, revitalizing and strong.
