SUMMIT SHOUTOUT

cellar door

location: portage la prairie, mb

owner: chelsea lewis

ig: @Thecellard00r

"at cellar door, we're more than a salon—we're a space where connection, creativity, and confidence meet. our team of ambitious women is passionate about hair, skin, and beauty, but even more passionate about making people feel seen and celebrated. we combine high-end service with a down-to-earth vibe, so every guest leaves feeling refreshed, inspired, and a little more like themselves."

what's your fave part about the beauty industry?

my favourite part of this industry is the personal connection it fosters. every day, i get to be part of moments where someone feels seen, heard, and cared for—whether it's through a haircut that boosts their confidence, a skincare treatment that helps them feel at home in their skin, or just a meaningful conversation.

beauty goes beyond the surface. it's about trust, creativity, and helping people show up as the best version of themselves. i'm constantly inspired by the passion and growth i see in both our guests and our team. watching someone light up when they see their reflection—or seeing a team member step into their potential—is why i do this work.

if you could only take one product along with you on a night out, what would it be?

definitely the maria nila finishing spray (mini edition). it holds a style beautifully without feeling stiff or heavy, and i love that the brand is vegan and environmentally

conscious. it strikes the perfect balance between performance and values—which feels true to me.

what's one quote that you love?

"nothing changes if nothing changes." it's such a simple truth. it's easy to dream about where you want to go, but real transformation only starts when you choose to take action. every major shift in my life and career has come from a moment of choosing to step forward—even when it felt scary or uncertain.

if your salon was a beverage, what would it be... and why!?

100% a paralyzer: smooth, a little unexpected, and sneaks up on you in the best way. at first sip, it's chill and approachable, but then you notice this bold, fun edge that makes the experience unforgettable. that's the vibe of our space—welcoming, stylish, and the perfect mix of laid-back and elevated.

SPA SUMMIT SHOUTOUT

the canadian beauty academy
location: winnipeg, mb
owner: vijay chintamaneni
ig: @tcbawinnipeg

"we believe that education in the beauty industry is the key to unlocking a career full of creativity and potential. our mission is to help students reach their full artistic potential through a program that combines cutting-edge techniques with strong business and marketing foundations. by investing in a high-quality education at tcba, students can increase their earning potential and build a rewarding, lasting career in the industry."

what's your fave part about the beauty industry?

my favourite aspect of the spa education industry is the ability to make people feel confident and beautiful—often by combining creativity with science to innovate and explore new products and services.

the industry is constantly evolving with advancements in technology and formulations, but at its core, it's always about **connection**—with individuals, with the body, and through the healing power of touch.

some of the most rewarding parts of this work include building strong relationships with students, clients, and colleagues; having endless opportunities for learning and creativity; and enjoying the flexibility this career path provides.

if you could only take one product along with you on a night out, what would it be?

we always reach for a chemical exfoliating cleanser! the **quanessence qpeel pro aha resurfacing foam** is a go-to—it cleanses and exfoliates the day (or night) away, leaving your skin looking brighter, rejuvenated, and glowing with youth.

what's one quote that you love?

"the future belongs to those who believe in the beauty of their dreams." – eleanor roosevelt

this quote is a reminder to keep dreaming boldly—and to believe in the vision you have for your life and your career.

if your salon was a beverage, what would it be... and why!?

just like a spa experience, it's soothing, customizable, and all about relaxation and replenishment. a warm cup of tea feels like a cozy hug—and that's exactly how we want our guests to feel when they visit us: nurtured, calm, and completely at ease.
